## Door Demon

### Skid Steer Door Demon

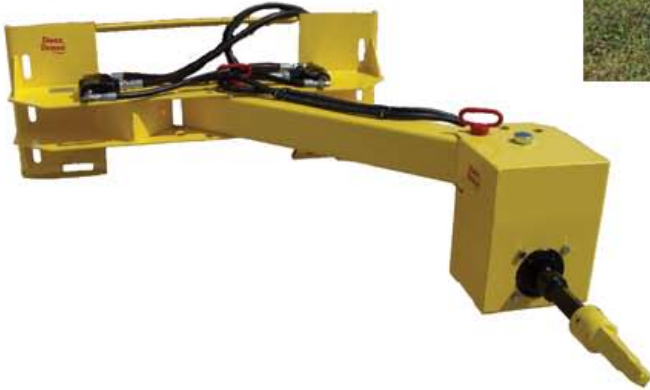

Quick attach mounting fits most units  
Multiple positions allows for greater flexibility to get where you need to

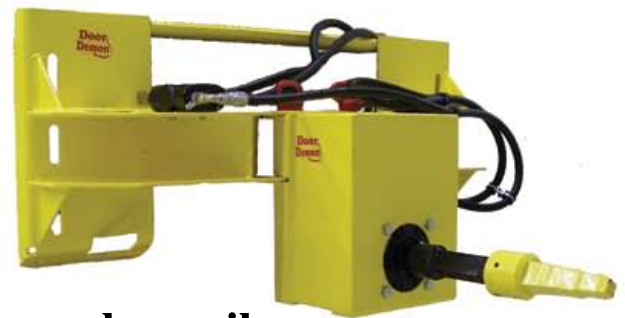

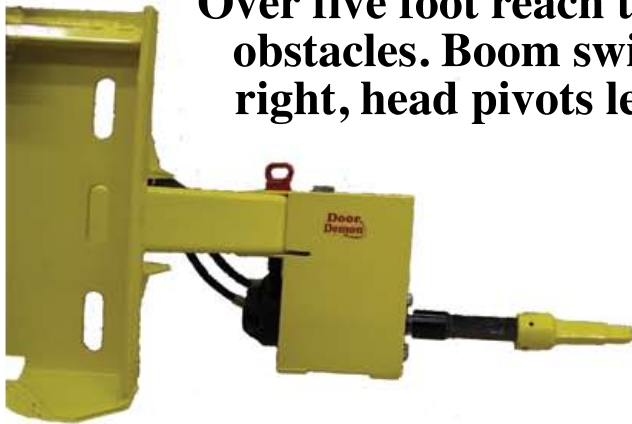

Unit can be used in the forward position or to either side

This unit like all our Door Demon products gives you smooth constant torque. The quick attach design allows to switch from job to job with ease

Over five foot reach to clear most obstacles. Boom swings left or right, head pivots left or right

Boom can be easily removed for compact forward drives
